Foreword	i
Executive Summary	iii

Part I: Foundation of the Plan

1.0 Background	3
1.1 Introduction	4
1.2 How to Use this Document	4
1.3 Study Purpose	6
1.4 Study Process	6
1.5 Campus and Community Engagement	8
1.6 Michi Saagiig and Indigenous Engagement: From Collaboration and Partnership	14
2.0 Campus Context	17
2.1 The Story of the Land	17
2.2 History of the Campus	18
2.3 The Symons Campus Today	22
2.4 Academic Mission	22
2.5 Board Strategic Objectives (2016–2022)	22
2.6 Trent University Studies and Plans	23
2.7 Peterborough and the Surrounding Community	25
2.8 Regulatory and Guidance Framework	27
2.9 The Big Picture	30
2.10 The Role of the TLNAP	31

Part IIa: Campus Vision and Framework

3.0 Vision and Guiding Principles	34
3.1 Guiding Principles	35
3.2 Anishinaabeg Nibwaakaawin (Wisdom): Guiding Principles	37
3.3 Our Responsibility to Future Generations	38

4.0 Framework Plan	42
4.1 Structural Elements of the Plan	44
5.0 Otonabee River	46
5.1 Significance of the Otonabee River	49
5.2 Watershed and Ecological Function	51
6.0 The University Green Network	58
6.1 Management of the UGN	61
6.2 Composition of the UGN	62
6.3 Infusing Nature in Built-up Areas	84

Part IIb: Campus Vision and Framework

7.0 The University Districts	86
7.1 Towards a Regenerative Future	106
7.2 Interface with Natural Areas and Features	110
7.3 Nature-Inclusive Design	112
7.4 Low Impact Development Strategies	120
7.5 Gathering and Recreational Spaces	121
7.6 Building Siting, Massing, and Orientation	122
7.7 Universal Accessibility	123
7.8 Placemaking and Storytelling	124
8.0 Mobility and University Entrances	128
8.1 Mobility Framework	131
8.2 Mobility Objectives	132
8.3 Complete Streets	135
8.4 University Entrances	136
8.5 Parking Areas	138
8.6 Access and Servicing	140

Part III: Nature Areas Stewardship Plan

9.0 Introduction	144
10.0 Context for the Stewardship Plan	146
10.1 History of the Land	146
10.2 Evolution of the Nature Areas	147
11.0 Vision and Goals for the Nature Areas	152
12.0 Nature Areas Boundary Review	154
13.0 Existing Conditions - General Characterization	158
14.0 Systems-Based Approach to Management of the Nature Areas	162
14.1 Systems-Level Plan	163
14.2 Management Plans	164
15.0 Nature Areas Management Categories	166
16.0 Taking Action	182
16.1 Targets and Metrics	182
16.2 Priorities and Actions	183

Part IV: Towards Implementation

17.0 A Trent-Specific Approach	189
17.1 Who's Involved?	190
17.2 Approach to Engagement	194
18.0 Stewardship of the University Green Network and Nature Areas	199
18.1 A Connected Natural Network	199
18.2 Developing a System-Level Plan	200
18.3 Developing Nature Area Management Plans	204
18.4 Guidance for Modifying the Trent Nature Area Boundaries	204

19.0 Campus Planning	207
19.1 The Development Process	207
19.2 Project Coordination	210
19.3 Unfolding a Long-Term Vision	214
19.4 Environmental Study During the Development Process	216
19.5 Recommended Studies	217
19.6 The Mitigation Hierarchy	218
20.0 Monitoring the Plan	225
20.1 Reporting Process	225
20.2 Understanding Our Impact	226
21.0 Plan Review and Updates	229

Appendix A: The System-Level Plan (Preliminary Terms of Reference)	A-231
